**Saelig Announces New Distribution Agreement with Boonton Electronics.**

**Fairport, NY. Saelig Company Inc.** (Fairport, NY) announces that it has been appointed an authorized distributor for Boonton Electronics' (A Wireless Telecom Group company) USB RF Power Sensors

**Boonton Electronics** is a leader in high performance RF and microwave test equipment for radar, avionics, electronic warfare, satellite and wireless communications, and EMI/EMC applications. Used across the semiconductor, military, aerospace, medical and communications industries, Boonton products enable a wide range of RF power measurements and signal analysis for RF product design, production, maintenance and system integration. The Boonton product portfolio includes peak and average RF power meters, Real-Time USB Power sensors, RF voltmeters, modulation analyzers, and audio analyzers.

This agreement will make Boonton advanced technology products available to Saelig's huge customer-base of electronic design engineers, electronics manufacturers, defense contractors, DOD, government, education, and individual engineers.

"Our partnership with Saelig contributes to our ongoing successful growth strategy," stated Dan Monopoli, WTG's Chief Technology Officer. "We know that Saelig's helpful technology team will be able to offer a competent resource for customers looking for reliable RF testing solutions."

"Boonton products are well-known and highly regarded in the RF world, and they represent a welcome addition to our expansive selection of RF test product portfolio," said Alan Lowne, Saelig's founder and CEO. "They allow us to cover gaps in our offerings, and help us maintain our commitment to providing and supporting the best engineering products available."

**About Saelig Company Inc.** *Founded in 1988 in Rochester, NY, Saelig is a North American distributor with a growing reputation for finding and sourcing unique, easy-to-use control and instrumentation products and related components. Product lines are continuously added from sources across the globe at highly competitive prices, accompanied by full in-house technical support, exceptional customer service, and fast delivery. For full details of available product lines, please visit [www.saelig.com](http://www.saelig.com).*

**About Wireless Telecom Group, Inc.** *WTG is a global designer and manufacturer of advanced RF and microwave components, modules, systems and instruments. Serving the wireless, telecommunication, satellite, military, aerospace, semiconductor and medical industries, Wireless Telecom Group products enable innovation across a wide range of traditional and emerging wireless technologies. With a unique set of high-performance products including peak power meters, signal analyzers, signal processing modules, LTE PHY and stack software, power splitters and combiners, GPS repeaters, public safety monitors, noise sources, and programmable noise generators, Wireless Telecom Group supports the development, testing, and deployment of wireless technologies around the globe.*
