Saelig Announces New Distribution Agreement with EECL UK

Fairport, NY. Saelig Company Inc. (Fairport, NY) announces that it has been appointed an authorized distributor for EECL (European Engineering & Consultancy Ltd.) of Kingston, UK - a premier designer of advanced electronic and wireless solutions for Industrial, Space, Defense and Commercial applications.

Founded in 2016 as a consultancy, EECL's capabilities include consultancy, RF products, and engineering services. This agreement will make EECL's unique RF solutions available to Saelig's huge customer-base of electronic design engineers, electronics manufacturers, defense contractors, DOD, government, education, and individual engineers.

"We are very pleased to be partnering together with Saelig's technical distribution services, and are confident that our collaboration will be successful," stated EECL's founder and director Dr. Ben Kieniewicz. "We know that Saelig's helpful technology team will be able to offer a competent resource for customers looking for our wealth of RF capabilities. And their existing customer-base is well-suited to our product expertise"

"EECL's products and custom capabilities represent a welcome addition to our expansive RF test product portfolio," said Alan Lowne, Saelig's founder and CEO. "EECL competes economically in some areas with famous brands, but they also offer customized solutions for EMI containment that have made their way into space, and even the moon! This agreement will help us maintain our commitment to providing and supporting the best engineering products available."

For detailed specifications of EECL products and capabilities, free technical assistance, or additional information, please contact Saelig 888-7SAELIG, via email: info@saelig.com, or visit www.saelig.com.

About Saelig Company Inc. Founded in 1988 in Rochester, NY, Saelig is a North American distributor with a growing reputation for finding and sourcing unique, easy-to-use control and instrumentation products and related components. Product lines are continuously added from sources across the globe at highly competitive prices, accompanied by full in-house technical support, exceptional customer service, and fast delivery. For full details of available product lines, please visit www.saelig.com.

About EECL. EECL specializes in advanced electronic and wireless solutions for Industry, Space, Defense and Commercial customers. Their services include premium customized RF and microwave enclosures, designed to deliver superior electromagnetic isolation and unmatched RF performance with unique, industry-leading isolation gasket and advanced microwave absorber technology, ensuring that each enclosure offers best-in-class, repeatable shielding effectiveness. Off-the-shelf products include 32GHz RF Switch Matrixes, RF source-measure units, frequency converters up to 90GHz, radar modules, and low noise and power RF amplifiers.
