

news & updates August 2025 | Issue 33

In this issue:

CEO's Corner

Dear Colleague,

You already know that Saelig Co. Inc. sells and supports remarkable test equipment and components from around the world with specs or prices you won't find anywhere else; products like entry-level up to premium specification economical oscilloscopes, PC and RF spectrum analyzers, USB and Logic analyzers, Waveform Generators, Digital Pattern Generators, pure RF sources, DMMs, wireless and wired data-loggers, test equipment, SPI/I2C controllers, Touch-Sense, Ethernet and USB ICs and modules, CANbus and motor control boards, high-reliability

Industrial and Touch-panel PCs, wireless and I/O control, Ethernet-serial/USB-serial/RS232-485, software, EMI tents and enclosures, etc.

But did you know that Saelig Company, Inc. has a reputation for finding, marketing, and supporting unique electronic products for electronics engineers from around the globe that you won't see anywhere else, and they might be just the solution for your testing needs! See below for just some of them (more on our website!)

Alan Lowne
CEO, Saelig Company Inc.

Alan Lowne, CEO

Founded Saelig in 1988 to search the world for unique electronic control and instrumentation equipment, including economical oscilloscopes, PC and RF spectrum analyzers, DSI and logic analyzers, ATEs, pure 50 sources, DMMs, data loggers, DFI and DC controllers, PCB load, highest industrial panel PCs, EMI enclosures, USB serial converter modules, etc.

Our product customers include Intel, Apple, Philips, Matsushita, NEC, TI, Harris, Sony, HP, General Dynamics, Northrup Grumman, many other Fortune 100 companies, military, educational institutions, hospitals, industrial end-users, students, hobbyists, etc.

A selection of our
UNIQUE

instruments and devices
(Click on the image to go to the listing on our website.)

ABI BoardMaster PCB Test and Diagnostic Solution

BoardMaster is a universal PCB test and diagnostic solution, customized to the electronics maintenance demands of each customer.

Compact IC Testers

ABI's two Compacts are versatile, handheld IC testers for out-of-circuit testing. ChipMaster is a digital IC tester with a built-in socket for testing Dual In-Line (DIL) chips. It includes testing software and a library of more than 4000 of the most commonly used ICs.

ABI JTAGMaster

The JTAGMaster Tester and Programmer is a fully integrated solution for the configuration and diagnosis of Programmable Logic Devices (PLDs).

RevEng Reverse Engineering / Schematic Learning System

RevEng is a best-in-class hardware and software platform designed to create professional quality schematics for undocumented circuit boards.

Sentry Counterfeit IC Detector

The ABI SENTRY is a unique solution for the quick and easy detection of Counterfeit ICs and components.

Adeunis Field Test Device (ARF8393AAA)

Price: \$495.00

[Product Details](#)

This network tester provides accurate, real-time results on the performance of NB-IoT/LTE-M networks.

LoRaWAN 915 Field Test Device (ARF8124AA)

Price: \$284.90

[Product Details](#)

The LoRaWAN Field Test Device by ADEUNIS RF is a ready-to-use system which provides connection to any operated network using the LoRaWAN V1.0 protocol.

Sigfox RC2 Field Test Device (ARF8122AA)

Price: \$366.93

[Product Details](#)

The Field Test Device (FTD) from adeunis® is a Class 0 sigfox compatible device (not a point to point device).

NanoRanger Handheld DC Ammeter Kit

Price: \$356.40

[Product Details](#)

NanoRanger® is an accurate, 3.5 Digit, affordable, DC ammeter to measure very low currents. With automatic dynamic ranging (9 ranges across 8.5 decades),

USB2ISO USB 2.0 Galvanic Isolator Adaptor

Price: \$59.95

[Product Details](#)

Just plug your USB device into the USB2ISOs connector and then plug the USB2ISO into a HUB or PC. The PC and your USB device now have no electrical connection but can still talk to each other.

ChargeBox FAST3 Mini

Request a Quote

[Product Details](#)

The ChargeBox FAST3 - a complete mobile device charging station with three lockers including a patented SmartLock key system for security. SmartLock detects that a device is charging before enabling a user to secure the door, minimizing lost keys and maximizing customer experience.

ChargeBox FASTHub

Request a Quote

[Product Details](#)

The ChargeBox FASTHub solution is an elegant and effective method of providing charging services previously unavailable before. It incorporates USB-C, Apple, and Qi charging methods using a low profile design. The FASTHub can charge Apple devices, USB 2.1, and USB-C devices.

CPI-S070WR 7" Industrial Raspberry Pi Touch Panel

Price: \$395.00

[Product Details](#)

The ComfilePi is a Raspberry Pi-based industrial touch panel PC. The CPI-S070WR utilizes the Raspberry Pi Compute Module 4S.

Fametech CS-700 USB Handheld Barcode Scanner (C)

Reg. \$65

Sale! \$9

[Product Details](#)

The durable and ergonomically designed CS-700 is one of the best-value handheld scanners in its class. It has a high intensity aiming line and captures bar codes from zero up to 20 cm.

GL SPECTIS 1.0 Touch + Flicker Meter Metrics [2013]

Price: \$6,240.00

[Product Details](#)

The GL Spectis 1.0 Touch Flicker Spectrometer, is an upgraded version of the very successful handheld Spectis 1.0 Touch Spectral Light Meter. This device can now measure the increasingly important parameter of light flicker .

GL SPECTIS 1.0 Touch Spectrometer

Price: \$5,970.00

[Product Details](#)

If you are looking for reliable, precise and intuitively operated spectral instrument for light assessment, our state-of-the-art light measuring tool GL SPEC TIS 1.0 touch is the best answer to all your spectral light measurement needs.

GL OptiLight LED 127 CLC (173088)

Price: \$13,470.00

[Product Details](#)

GL Optic has achieved a patent-pending product with ability to control the properties of its LEDs using a complex multilevel calibration procedure that characterizes each single LED light source, storing the spectral properties in the unit's electronic controls.

Intona USB 3.0 SuperSpeed Isolator (7055-C)

Price: \$412.98

[Product Details](#)

The Intona 7055 Series USB 2.0/3.0 Isolators which provide galvanic isolation to any USB bus. Compliant to USB 2.0 High-Speed 480Mbps and USB 3.0 SuperSpeed 5Gbps the 7055's isolation is designed to withstand up to 5kVRMS.

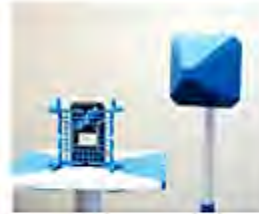

Intona USB 2.0 Hi-Speed Isolator (7054)

Price: \$264.90

[Product Details](#)

The Intona 7055 Series USB 2.0/3.0 Isolators which provide galvanic isolation to any USB bus. Compliant to USB 2.0 High-Speed 480Mbps and USB 3.0 SuperSpeed 5Gbps the 7055's isolation is designed to withstand up to 5kVRMS, as well as advanced ESD protection to 20kV (IEC Airgap discharge).

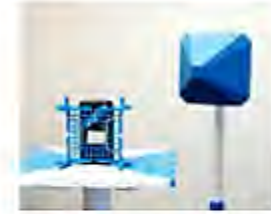

MegiQ RMS-0640 600MHz - 4GHz Radiation Measurement

Price: \$17,811.02

[Product Details](#)

The MegiQ Radiation Measurement System (RMS) is a compact test system that performs 3-axis radiation pattern measurement in non-anechoic spaces. With a frequency range of 600 MHz to 4 GHz it is well suited for characterization and measurement of Antenna Radiation Patterns, Antenna Gain, ERP, TRP, Field Strength.

MegiQ RMS-0660 600MHz - 6GHz Radiation Measurement

Price: \$20,364.23

[Product Details](#)

The MegiQ Radiation Measurement System (RMS) is a compact test system that performs 3-axis radiation pattern measurement in non-anechoic spaces. With a frequency range of 600 MHz to 6 GHz it is well suited for characterization and measurement of Antenna Radiation Patterns, Antenna Gain, ERP, TRP, Field Strength.

Microrad NHT310F 0 Hz - 40GHz Broadband EM Field M

Price: \$3,183.00

[Product Details](#)

The NHT310F is a broadband meter particularly suitable for measuring pulsed radar signals. Compatible with all Microrad probes, it can operate from static magnetic fields up to 60 GHz. Affordable, powerful, lightweight, compact, non-magnetic, with over 24 hours of operating autonomy and virtually unlimited memory.

Microrad NHT3DL EMF Safety Meter

Price: \$5,305.00

[Product Details](#)

NHT 3DL has been designed to measure electromagnetic fields in compliance with all the main international standards and regulations. This device is able to adapt to future regulatory requirements using its completely reprogrammable system and structure.

PIC-SERVO SC 3PH Motor Controller (KAE-T0V10-BD3P)

Price: \$240.00

[Product Details](#)

The PIC-SERVO SC 3PH Motion Control Board is similar to the standard PIC-SERVO SC board above but with a higher current amplifier capable of driving brushless or brush-type DC motors.

PIC-SERVO SC - DC Servo Motor Controller (KAE-T0V1)

Price: \$160.00

[Product Details](#)

The PIC-SERVO SC Motion Control Board is maybe the fastest and lowest-cost way of getting your DC servo motor up and running. The clear, explicit documentation and the Windows test utility program take the

PIC-STEP Stepper Motor Controller (KAE-T3V1-BDV1)

Price: \$160.00

[Product Details](#)

The PIC-STEP Motion Control Board is an integrated controller which includes both high-speed indexer functions and a power driver.

Sciospec ISX-3 EIT Impedance Analyzer

From \$12,500

[Product Details](#)

Electrical impedance tomography (EIT) is a noninvasive medical imaging modality in which the electrical impedance of a part of a body or object is inferred from surface electrode measurements and used to form a tomographic,

mystery out of servo motor control.

sliced image of that part.

Sciospec ISX-3 Impedance Analyzer

From \$8,500

[Product Details](#)

Sciospec ISX-3 Mini Impedance Analyzer

From \$9,500

[Product Details](#)

Sciospec LCR-1 LCR Meter

Price: \$4,641.00

[Product Details](#)

The Sciospec Medical Research ISX-3 Impedance Analyzer, which is intended to facilitate the use of impedance spectroscopy in medical research applications. With Sciospec's class-leading ISX-3 Impedance Analyzer as its basis, the Medical Research ISX-3 is equipped with enhanced electrical safety considerations in accordance with DIN EN 60601-1:2013.

Demanding measurements but no room for large and bulky lab equipment? Impedance Spectroscopy out in the field? With the ISX-3mini Sciospec offers a fully equipped impedance analyzer fitting in the palm of your hand. In standard configuration the ISX-3mini is equipped with Sciospec's IF frontend.

The LCR-1 measures electrical properties of passive electronic components or other objects at specific frequencies. It applies an AC voltage or current signal to a component under test and then measures the voltage across the component.

OhmRanger-LCV Handheld Low Compliance Voltage Ohmm

Price: \$295.90

[Product Details](#)

SpectraTronix C700 Modular RF Test Platform

From \$399

[Product Details](#)

The Clipper CLP1500V15A1 Measurement Probe

Price: \$2,276.00

[Product Details](#)

AltoNovus OR-01 OhmRanger-LCV™ Low Compliance Voltage Ohmmeter is an accurate, affordable, portable meter which can measure a wide range of resistances simply and quickly. Individually factory-calibrated, this meter measures resistances from greater than 100Mohms down to 10 Ohms.

The SpectraTronix C700 Modular Radio Development Platform is a system of mix-and-match RF modules for quickly creating almost any software-defined digital radio or analog, digital or arbitrary modulated RF system. Designed specifically to bring fast results and flexibility to RF system designers and educator

Germany-based Springburo has, for the last 25 years, specialized in the design of custom power electronics (e.g. switched-mode power supplies and motor control, incorporating the latest generation wide-band-gap devices such as SiC, GaN).
